Remote control

The SDQ5PIR-REM is an infrared remote control for the successful APart SDQ5P speaker set. This wireless remote control is especially handy as the speaker set's controls are on the back of the active speaker, and both speakers are mostly wall mounted, often high in a corner. The IR receiver eye is in the front grille of the active speaker.

Following commands can be executed with this remote control.

Power on
Power standby
Input A
Input B
Input A + B
Input Wall
Level up
Level down
Mute
Bass Up
Bass Down
Treble Up
Treble Down
